

Bio for Monique Miller

My name is Monique Miller; I am the Development Operations Database Coordinator at the 92nd St Y. I have been actively involved with the union for 12 ½ years, and in that time frame, I have helped organize action plans, negotiated our last two contracts with our two wonderful co-chairs, and am an active shop steward. As a member of DC 37, I am looking forward to serving you and working with as many of you as possible to protect our members, involve new members, and maintain the strength of our union. To achieve these goals, we will have to reach out to our members, listen to them, and work with our chapter leaders. I pledge to do that if elected. I ask that you allow me to continue to do this work for our members by electing me as a DC 37 delegate.
