COVID VACCINATIONS & RAPID TESTS
(after May 11, 2023)

Vaccines

If you are concerned that you will have to pay a co-pay or coinsurance if you need a **COVID vaccine** when the government lifts the Public Health Emergency (PHE) on May 11, 2023, please note that you will still be eligible to receive a COVID vaccine without any cost to you after the PHE is lifted on May 11th. However, free COVID vaccines will <u>only be available from an in-network provider</u> (e.g., your in-network doctor's office, a free-standing clinic or from your local in-network pharmacy). You will be charged for a portion of the cost of the vaccine if you obtain it from an out-of-network provider (e.g., out-of-network pharmacy, Urgent Care, ER, hospital or a doctor who is not in the Emblem network). In order to maximize the savings to your benefit plan and to avoid any out-of-pocket cost, please obtain your vaccine from a WellDyne <u>in-network pharmacy</u>. To check for in-network pharmacies, call WellDyne's member services at: (888) 479-2000; or, log on to: https://link.edgepilot.com/s/83d17bb6/Xl-8DfJny0G9iRh3uORRJg?u=https://wellview.welldyne.com/

Rapid Tests

If you feel you have been exposed to COVID and want to be tested, your agency may have free **rapid COVID tests** for your personal use. Please check with your agency to see if it has free rapid COVID tests available. Also, free rapid tests may still be available after May 11th from the federal government until the supply runs out. Call: 1-800-232-0233 or log on to www.COVID.gov to obtain free rapid tests from the government while supplies last. If your agency cannot provide a free rapid test or the government runs out of free tests, you will be charged for the cost of the rapid test wherever you decide to purchase it.
