

Harlem Hospital

HEALTHCARE EDUCATION ACTIVIST TEAM
An HHC Municipal Labor Subcommittee Project

We the undersigned urge City, State and Congressional elected officials to support Harlem Hospital and the Health and Hospitals Corporation's (HHC) mission of caring for all patients and residents, regardless of ability to pay by ensuring that the following actions are taken:

- **Hire additional staff, especially nurses and doctors:** Commit to guidelines of Safe Staffing Bill
- **Invest in OUR services, stop outsourcing:** Fund expansion of dialysis service into our new building and roll back other outsourcing contracts
- **Bring back locally cooked, quality food:** Because the outsourced "Cook-Chill" meals don't cut it
- **Harlem deserves fair funding:** New York State disproportionately allocates money to private hospitals for uninsured patients, though Harlem and other HHC hospitals provide most of this care
